LOUISVILLE, October 23.—A staff correspondent of the Times, who went to Pineville last night, wires that paper from the scene of the battle of vesterday morning as follows: Wils Howard and one [of his principal mennamed Jennings, are among the wounded and it is said that Howard's injuries are probably fatal. The Turners have been in possession of the town for more than a week.

Their leader is John Turner, just seventeen years of age. Howard's forces have been in camp one mile from town. There are about forty men in each crowd, all equipped with Winchesters and revolvers. Yesterday morning Turner led his followers in an attack on the Howard camp. The attacking party got in the first work, but were finally driven back to town. ATLANTA, GEORGIA, THURSDAY MORNING, OCTOBER 24, 1889.

THE LORD BISHOP'S VISIT. THE STATE FAIR Proceedings of the General Conference of

the Episcopat Church. New York, October 23.—When the Episcopal convention opened today, the president of the house of deputies, Dr. Dix, presented Right Rev. Dr. Churton, lord bishop of Nassad, to the convention, and the members arose in respect to the dis-tinguished guest. The first business at the morning session was the report of the committee on canons in relation to the organization of a missionary dio-cess, deciding that consideration of the subject was

cese, deciding that consideration of the subject was impracticable at this late stage of the proceedings. The colored question was reported by the committee on conference appointed by the louse of bishops, who recommended that the deputies accede to the decrees of the upper house, and pass a resolution defining the attitude of the Episcopals toward the negro race.

The deputies declined to reconsider their action. The subject of increasing the membership of the committee on the state of the church by providing for two delegates from each missionary jurisdiction, and one from the church in foreign lands, followed.

for two delegates from each missionary jurisdiction, and one from the church in foreign lands, followed.

Dr. Nevin's motion was to amend by electing two delegates from all missionary jurisditions, and one from abroad. After some debate the resolution and amendment were adopted.

At this point the secretary notified the house that the bishops had again failed to concur in the adoption of Dr. Huntington's short office of prayer, as recommended by the conference committee.

Another burning question was disposed of by the house, to-wit: The resolution of S. Corning Judd, of Chicago, to substitute for the words "Protestant Episcopal" the words "American Church," amounting to a change in the title of the church, Mr. Judd explained that the measure merely looked to the elimination of the present title page of the prayer book, and did not require a constitutional amendment. He had no doubt that a majority of the members desired a change. [Laughter.] "The gentiemen," said he "laugh, no doubt, from joy."

The judge then stated that friends of the measure were in no haste and moved that the adverse report of the committee together with the original resolution be referred to the next general couvention and it was so ordered. Two resolutions reported back by the joint liturgleal committee, were next in order. The most important was that the robric following the prayer for the president of the United States be transposed so as to follow the collect for grace in the morning prayer. This implies the onlines of the prayer, and excited a number of speeches protesting against such omission.

Dr. Newton, of Virginia, called attention to the fact that there was no man in the land who was so burdened with responsibility or neededthe prayers of the people more.

Dr. Gibson moved that the motion go over until the next triennial convention, but was yoted down.

Dr. Gibson moved that the motion go over until the next triennial convention, but was voted down.

Mr. Stark, of Connecticut, moved that the vote be taken by dioceses and orders and the roll of each diocese cailed. The motion was lost by a vote of ayes 7, neys 78.

When the afternoon session had begun, Dr. Goodwin, of Pennsylvania, presented a report from the committee on canons, regulating the election of bishops, which was adopted. A debate on marriage and divorce was then commenced. The first section of the canon read: "If any persons be joined together otherwise than as God's word doth allow, their marriage is not lawful."

Dr. Benjamin Franklin, member of the committee, addressed the house on the question and moved the passage of the first section.

Dr. Burgwin proposed an amendment of the second section by omitting it and adding to the first, "and such marriage is hereby prohibited."

This brought the house into a long debate on consanguinity, and the propriety of a man marrying his deceased wife's sisters.

Dr. Burgwin's amendment was carried by a vote of 134 to 90.

DEMANDING THEIR ARREST.

Berrier's Lynchers.
RALEIGH, N. C., October 23.—[Special.]— Governor Fowle is making earnest efforts to secure the trial of the men who were engaged in the lynching of Robert Berrier, at Lexington, on the 14th instant. The governor when informed on the afternoon of that day that Berrier was in danger, telegraphed to parties at Lexington as follows:
"Let protection be made to all good people in Davidson county to prevent violence. Let the law

Davidson county to prevent violence. Let the law take its course and the legal authorities will see that justice is done."

This telegram was delayed and did not reach Lexington until after the mob had lynched Berrier. The governor today made public the following letter, which he wrote on the 18th inst. to Solicitor R. F. Long, of the eighth district: "I enclose you a copy of a letter received from W. B. Glenn in regard to the Lexington lynching case. After consultation with the attorney-general, I respectfully suggest that you have affidavit prepared at once and submitted to the judge of the district as a basis for bench warrants to be returned before the judge. Can you not get the judge to have them returned before himself at Lexington? The law must be maintained at all hazards and the criminals arrested. All the power of the executive will be exerted, if necessary, to aid you in the arrests of these men and their proper confinement. Also inquire whether officers of the county have done their duty in maintaining the laws. In my opinion the times dein the list work, but were finally driven back to town. A report reached Pineville at 11 o'clock this morning that the Howard forces in Harlam, enraged by the battle of yesterday and the probable fatal wounding of their leader, left camp last night and started for Harlam courthouse, intending to kill every-body belonging to the opposition and burn the town. G. C. Huff, clerk of Harlam county court, Aspenville is afraid to go home, though he has no connection whatever with the trouble. The latest report from Harlam courthouse states that Wils Howard had cut off Lewis and his party from communication with the town. Sheriff James Howard, of Harlam, who is here, urges that the governor send troops to quiet the county. He says on account of the wide extent of the feud he cannot county have done their duty in maintaining the laws. In my opinion the times demand prompt and vigorous action upon the part of all our officers—judicial and executive. The governor today received official information that Solicitor Long had gone to Lexington on last night's train. The governor said to your correspondent that the solicitor will get up affidavits and have arrests made; and that every judge in the state will be applied to, so as to ascertain if any of them can be spared so as to go to Lexington and try these warrants. The governor has no authority to order courts of oyer and terminer or any special term to which any process except subpacts for attendance of witnesses can be returned. This matter is all of great importance. WILKESBAREE, Pa., October 23.—The exclement today at Plymouth over the church tooble continues at fever heat. All last night tooble continues at fever heat. This morning the parties in the building signalised to them and, on drawing near, the detectives were told ther might enter. They were escorted through the building and were shown an arsenal of guns and pistois in the hands of six desperate-looking Polanders. The officers were then taken to the door and informed that the besieged party meant to hold possession at all hazards. A dispatch from Birmingham, Ala., says:

"An active movement is on foot to consolidate the Tennessee Coal, Iron and Railroad company, which owns thirteen furnaces, miles of railroad which owns thirteen furnaces, miles of railroad, and thousands of acres of land in this district, and the Debardeleben Coal and Iron company, which is also rich in similar properties. The capital of the former company is \$6,000,000, and of the latter \$8,000,000. The consummation of these large interests would create practically a monopoly in the coal and iron trade here. The majority of the stock of the former company is held in New York, and of the latter in North Carolina."

"We agreed that it would be best to hold a meeting before the meeting of the league directors, because we might decide to present our claims before them. Macon, Ga., October 23.—[Special.]—The state fair opened today under the most flattering auspices. The weather was very beautiful, the exhibition halls are full of handsome ex-hibits and there was a large attendance of vis-itors considering that it was the first day of the fair. The exhibition will continue for ten days, and as each day will have five special attractions the attendance will daily grow larger and larger.

larger and larger.

While scores of exhibitors have already arranged their exhibits in position, there are many car-loads of goods that have not yet been unpacked, and the probability is that all the exhibits will not be in position before Friday.

THE DIFFERENT DEPARTMENTS,
Floral bail is a perfect picture. It is indeed beautiful to look upon. Here is displayed in wonderful profusion, perchants' exhibits, needlework, flowers, etc. The display of female handiwork is the most elaborate and varied, beautiful and elegant ever seen at a state fair.

Premium and Agricultural halls will attract and hold the attention of the visitor. Here is arranged in artistic and attractive manner the elegant county agricultural exhibits for the best county display.

THE AGRICULTURAL DISPLAY.

The agricultural display will be the handsomest ever seen in Georgia. Experts at such say that the display of farm and field products constitute a fair within itself and worth many miles of travel to see. All the counties have not yet arranged their goods, but judging by the view so far presented the race for the first prize will be between McIntosh, Sumter, Talbot, and Worth, though when Randolph, Washington, and Houston get in line they become strong competitors.

INDIVIDUAL EXHIBITS. INDIVIDUAL EXHIBITS.

There are some magnificent individual displays of farm producs. Bibb, Hancock, and all of the other above mentioned counties have representatives in the individual contest, and the result will remain in doubt until the award of the judges. The contest is watched with great interest. OTHER DISPLAYS.

OTHER DISPLAYS.

Machinery hall is filling up with gins, tools, implements and all kinds of manufacturing and agricultural appliances. All sorts of engines and boilers are displayed.

The display of buggles, wagons, carriages and harness is very good. The array of buggles is particularly fine. There are exhibitors in this line from all sections of the country.

HORSES AND CATTLE.

The display of blooded horses and Georgia raised stock of all kinds is truly excellent, and reflects great praise on Georgia. There are over two hundred stalls occupied, and scores of pens. The display of Jerseys is admirable. It had been predicted for weeks that the horse and cattle display would be great, and these predictions have been realized.

EENCH AND POULTRY.

The bench and poultry exhibits are excellent. The poultry department contains many hundred of birds of all varieties. One exhibitor has over four hundred birds. The poultry display attracts much attention.

attention.

It is not the writer's purpose to give a full description of the displays in one letter. The account will have to be published daily in skeleton shape.

ATRACTIONS.

Every day there will be a series of attractions to amuse and entertain the people. There will be horse racing, bicycle tournament, rope walking, balloon ascension and the parachute jump, cavalry tilt and nnumerable side shows. The chief event will be the grand cavelry tilt. Twelve splendid troops have entered the tournament which occurs tomorrow and Friday, and will certainly prove the most brilliant and attractive tilt ever seen in the south.

Visitors have commenced to arrive in the city in reat numbers. The evening trains came crowded. The rush tomorrow and Friday is expected to be great. There will also be large attendances on several special days next week.

The management is greatly encouraged by the outlook, and feel sanguine and hopeful of a grand

A Farmer's Boy Sacrifices His Life to Save Another One.

LOUISVILLE, Ky., October 23.—Van Dyke Heyser, an eighteen-year-old boy, who was injured in the wreck at Nolan station, fifty-three miles below here, on the Louisville and Nashville railroad, yesterday morning, died in the afternoon. Heyser was a farmer's boy, and was coming to Lonisville to get employment. When the mail train made its frightful lurch and all began to fiee, Heyser rose and ran toward the coach door. He was almost out on the platform, and in a second more would have been safe, when a frightened woman reached his side, nearly fainting with terror. She would have fallen had not Heyser seen her condition and nobly came to her rescue. Supporting her with one arm he stepped to one side and assisted her to pass him, gently forcing her out to the platform. Before he could follow her the mail train crashed into the accommodation. The heroic boy was taught in the shattered ruins and fatally injured. A few moments later he was dragged out from the dust and smoke of the wrecked coach, torn and lacerated by splinters and his body about the hips so badly crushed that there was never a doubt but that his death was only a few hours off.

ELECTRIC LIGHT BURNED OUT. The City ini Total Darkness from Three O'clock Until Sun-Up.

The Electric light plant burned out this morning about half past three o'clock.

The city was then in total darkness until the light

of day came on.

The entire building in which the machinery wa located was ablaze at one time, and no current came out from the shop to feed the wires and

globes which illuminate the streets and offices. The blaze was first detected about half-pass three, and before the fire alarm sounded every ligh upon the streets, in the hofels, union depot and shops where electricity is used as an illuminator were in total darkness.

The plant is located on the Western and Atlantic railroad between Spring and Bartow streets. I was a large brick building two stories high with two cupolas on top, and cost the company about \$10,000 \$12,500. It was erected for the purpose to which it has been applied, and was one of the best pieces of work that could be done. Attached to it was an enginehouse of the same character. The flooring and roof of both buildings were of heavy pine lumber and material of the best char-

acter.

On the first floor was a very valuable lot of machinery necessary for the production of electric

lights.
On the second floor was a lighter grade of machinery and a bedroom for the man in charge.

The machinery on the two floors was valued at about \$50,000 to \$55,000.

The cupolas on top of the building were constructed for the wires which pass into the building and along which the electric current rides to the clobes.

contact with the wood might have caused a blaze, so those who work about the building say.

When the fire was first seen it was about the size of an ordinary market basket.

A kind of "intermittent" blaze it might be called. It was seen by a brakeman on top of a Western and Atlantic car which was being suited through and Atlantic car which was being switched through

The brakemen gave the alarm, and with his usual quickness Joyner was upon the scene with his men and fire extinguishers.

and life extinguishers.

The blaze in the meantime became a steady one, which seemed increasing in size.

Chier Joyner, at the first glance, realized that it would take a quantity of water to extinguish it.

He knew that the machinery would be badly damaged by water, as much so as by fire.

Wishing to prevent as much loss as possible, he directed his firemen to cover all the machinery on the lower floor with rubber blankets before turning on water. The machinery was thoroughly covered and then a half-dozen nozzles were turned upon the flames,

The fire had made good headway by this time, and it required a hard, stubborn fight to win, but Chief Joyner put up that fight, and the flames had to be content with eating up the roof, a part of the second floor, some doors and windows and a hole in the first floor.

When the fire was out—about half-past four—the

walls were good but hot.

The interior of the building was quite wet, but the condition of the nachinery could not be ascertained, as Mr. George Wade, the superintendent,

A Meeting Memorializes Congress to Hold it at Washington.

Washington, October 23.—An hundred or more gentlemen, representing the National Board of Promotion, organized for the purpose of having the World's fair held in Washington in 1892, met in this city this morning. Those present came from various parts of the country and were nearly all members of boards of trade or similar commercial bodies. Delaware, Maryland and Florida were represented by their governors. A. B. Little, president of the board of trade of Philadelphia, was made chirman of the meeting. George C. Gorham, presented a memorial to congress urging that body to take steps for an appropriate celebration in 1842 of the 400th anniversary of the discovery of America by Columbus. An exposition designed to show the progress of civilization in the western hemisphere during the last 400 years is recommended for the purpose of this celebration and the memorialist "pray that the dignity of the nation be not entrusted on the proposed occasion to the keeping of any corporation, association or municipality upon any inducement whatever, but that the exposition be held at the national capitol, exclusively under the direction and control of the general government, and that from the treasury of United States; overflowing with revenues in excess of the needs of government, the excess of expenditures if any above the receipts be met."

Governor Fleming, of Florida, and others spoke in support of the memorial. It was adopted as the sence of the national board of promotion had recommended that a memorial be presented to congress requesting legislation for the holding of the world's fair in Washington under the exclusive direction and control of the federal government, and praying for authority to issue \$10,00,000 of bonds of the District of Columbia to defray the net expenses of the exposition in the event that congress shall be olopinion that the question of location should in any degree depend upon the offering of aguantee fund by the advocates of the city select

CHARLOTTE, N. C., October 23.—[Special.]—
A special tonight from Chester, S. C., says the sheriff received reliable information last evening that an attempt would be made last night to lynch Joe Foster, colored, charged with an assault on Mr. E. C. Chambers's little daughter some time ago. Information was telegraphed to Governor Richardson, who immediately telegraphed back ordering out the Lee Light Infanity to guard the jail, which was done all night, but no attempt to lynch was made. In court today Foster pleaded guilty of stealing a mule, which he made his escape on to North Carolina at the time he attempted rape, and was sentenced to three years in the pentientiary. Neither Mr. Chambers nor his little daughter could identify Foster and he was not tried for assault. The Lee Light Infantry guarded Foster to the depot today, and part of the company went with him to Columbia for protection. Everything is quiet, and no threats of lynching have been heard of today.

And there will be no jams today, nor will anyone have difficulty in getting out to the exposition grounds. The transportation facilities are simply perfect. The Peachtree line will run sixty cars teday. The electric line will have any number of cars running and will be able to carry many thousands to and from the exposition very rapidly. The Richmond and Danville railroad will, however, handle the bulk of the crowd. They will run a train of twelve Sea Beach cars, seating twelve hundred people, every fifteen minutes. It takes just ten minutes by this route to go from the Markham house to the exposition gate.

His dress is faultless, and his magnatism and eloquence have procured for him numberless honors. Among the many high positions he has filled are the president's chair of the Inter-state Farmer's Alliance and secretaryship of the North Carolina State Alliance. He is also editor of the Progressive Farmer, the official organ of the State Alliance of North Carolina. Colonel Polk will probably, at their next meeting, be elected president of the National Farmer's association. His eloquence has already stirred the people of Georgia on the occasion of the first meeting of the Inter-state Farmer's convention, when he spoke at the opera house with Governor Gordon. Senator Colquitt and Mr. Grady.

Mr. W.G. Upchurch is of great business ability, and he is well known in Raleigh as a capitalist as well as a progressive, public spirited man. The offices he at present fills are president of the State Agricultural society, president of the Raleigh Oil company, and vice-president of the Raleigh Oil company, and vice-president of the National bank. He is also a most successful cattle raiser, and his herd of Jersey cattle is celebrated throughout the country. Mr. Upchurch has lately taken to raising Devon cattle, and soon he expects to be as successful with them as he has been with Jerseys.

The ladies of the party are in every way charming, and in such company it is no wonder that the hours of the journey between Raleigh and Atlanta passed rapidly away. Before reaching the city the North Carolinians adopted the following resolutions:

Resolved, That we, the North Carolinians who have been honored with an invitation to visit Atlanta as the guests of the Piedmont exposition, desire to express our warm appreciation of the untiring and generous attentions of our genial, accommodating and pleasant escort, consisting of Mesara, G. V. Gress, Hugh Colquitt and Peyton H. Suock, whose unremitting efforts and lavish controstes have made our trip to the gate city so pleasant that it can never be forgotten.

Resolved, That North Carolina's gratitude is only equalled by Georgia's hospitality.

Resolved, That North Carolina's gratitude is only equalled by Georgia's hospitality.

Resolved, That we congratulate the Piedmont exposition on its admirable selection of representatives so particularly fitted, in every respect, to do honor to their great state enterprise.

These resolutions were signed by all the members of the party.

The committee who visited Raleigh were delighted with the reception accorded them. They say they were treated delightfully, and met many people whose memory will always remain with them as making the trip to Raleigh one of their most pleasant experiences.

THE SHOTGUN DUEL BETWEEN TWO CITIZENS OF DOUG-

The Doctor Objects to the Use of His Pointer by a Local Hunter, Which Brings About the Use of Shotgans.

Douglasville, Ga., October 23 .- [Special.] shooting affair which occurred here last night between Mr. Dunk Brantly, of Fairburn, and Dr. J. W. Duke, of this place, was brought about as follows: Mr. Brantly has been here several days hunting and sending his game to Atlanta. Yesterday morning he had some tame ducks that he had killed, intending to send them to Atlanta. Desiring to send a few partridges with them, he went hunting,

TAKING DR. DUKE'S POINTER, contrary to his wishes and without his permission. On his return, Dr. Duke spoke to him about it. Thereupon, Mr. Brantly inserted two loaded shells in his gun, began cursing Dr. Duke, and was only prevented from using his gun by the interference of a bystander. Dr. Duke then remarked to him that if it was SHOTGUNS THAT HE WANTED

to wait a minute. He went to his residence distant about a hundred yards, and got his shotgan and returned, but Brantly had gone. During the afterneon Brantly made several threats as to what he would do when he met Duke. Of these threats Duke probably heard. Last night they met at the store of Mr. John H. Ward. Both were armed, Duke with a pistol and Brantly with a shotgun. Without s vord they began

SHOOTING AT EACH OTHER. Duke's left hand, arm and shoulder were filled with bird shot, and Brantly was shot in the left side, a few inches below the heart, the ball striking a rib and deflecting. Duke fired only one shot, as his pistol became unmanage-able and would not revolve. The pistol used was a very inferior one, else Brantley's wound would be more serious. Neither is hurt dan gerously, but both will

SUFFER MUCH FROM THEIR WOUNDS. Marshal Hudson promptly arrested both of them, and took bonds for their appearance before the mayor next Monday. Brantley left for his home at Fairburn this morning, while Duke is able to be on the street with his arm

tragedy occurred yesterday near Winterville, upon the farm of Mr. Ben. Williams, of Ogle thorpe county. Mr. P. I. Kidd, a worthy and esteemed young man of that county, had car-ried some cotton belonging to his father, Mr. J. N. Kidd, to the public ginhouse of Mr. Wil liams. While there several of his farm hands liams. While there several of his farm hands became involved in a quarrel with several of Mr. Williams's laborers, and Mr. Kidd attempted to stop the row. Words were useless, and when he commanded them to stop, Gus Williams, a negro, became enraged, and, selzing a scantling, attempted to brain Mr. Kidd. Mr. Kidd drew his revolver and fired, the ball passing through the negro's breast. Mr. Kidd's action is justified by every one, both white and black.

TWO-HORSE FARMS.

What Can Be Produced on Them in Monroe County.

FORSYTH, Ga., October 23.—[Special.]—The dvertiser says that up to the first of last week Advertiser says that up to the first of last week a Monroe county farmer had sold in our market twenty-five bales of cotton from a two-horse farm, who said he had not gathered three fourths of his crop and had made a bountiful supply of corn, forage, etc., for his farm for twelve months. There is another who had delivered thirty bales in the market from a two-horse farm, and have several more to gather. And still another says that his from a two-horse farm, and have several more to gather. And still another says that his wife had gathered from her "patch" of about one acre, sixteen hundred pounds and had not gathered more than two-thirds of the crop from that patch. Still another live, energetic farmer near the city reports as the gross income from his four and half horse farm, this year, 1,000 bushels of cats, 1,000 bushels of corn, and sixty bales of cotton, with the promise of 4,000 pounds of pork.

The Goodyear, Cook & Dillon show is a good all-around minstrel show, without the frills and furbelows of what is denominated modern minstrelsy. While it is not a great show, it is a good one in all respects. The show opens with a first part which presents some good singers and some good fun. Special features of this are the end work of George Edwards and the singing of Elisworth Cook. The Leech brothers in banjo playing and dancing. Schilling in his musical absurdities, and the electric trio are all good. Goodyear's specialty is fair. The song and dance is well done. George Edwards is finny, and the Nichols in their acrobatic feats are excellent. The whole show took well, and the audience enjoyed it.

A programme has not been arranged, but it will include a drive about the city, a visit to Tybee with an has not been arranged, but it will include a drive about the city, a visit to Tybee with an oyster roast and dinner, a trip down the river to the ocean on one of the Ocean Steamship company's magnificent steamers and a gorgeous banquet, possibly in the great 'dining room of the new hotel. At Tybee the visitors will be shown through the new hotel there, and there is talk of serving a dinner there. Although the time is short to advertise a move may be made to get up a programme which will attract people from over the state to the city. Quick work could prepare a programme which would draw visitors from the neighboring counties. So soon as the legislature's reing counties. So soon as the legislature's reply is received this matter will be discussed.

The Tenacity of Nut Grass.

The Tenacity of Nut Grass.

LAGRANGE, Ga., October 23.—[Special.]—It has often been said that nut grass would not or could not be killed, and we are getting to believe it. The Graphic says that the dirtaken from under the old Holmes hotel fur nishes the latest instance of its tenacity. The hotel, it seems, was built over a patch of nut grass, some forty years ago, and these nuts shave been lying dormant there all these years, until taken out a few weeks ago. As soon as they were exposed to the light and moisture they began to thrive and sprout, and the mounds of dirt would have soon had a green surface had they been left undisturbed.

ONE DAY'S WAITING.

THE LEASE BILL WAITS FOR CHAIR-MAN WOOTEN.

To Come Up at All Hazards Today-Senato Bartlett's Vigorous Resolutions—The Bill to Pension Confederate Widows.

The senate did not take up the lease The senate did not take up and lease of yesterday, as was expected.

When the reading of the journal and some preliminary business had been dispatched Senator Lyle moved to displace the special order and set it for today immediately after the reading of the

journal.

Senator Massengale was on bis feet in a moment, and bristling all over.

"I hope that motion will not prevail," said he. "The senate is as competent to act on the lease bill today as it will be two mouths bence, and the people are clamoring for a settlement of this question."

Senator Lyle explained that Senator Wooten, chairman of the committee which had the bill in charge, was sick, and it was in courtesy to him that the motion was made to postpone the discussion one day.

charge, was sick, and it was in courtesy to him that the motion was made to postpone the discussion one day.

Senator Boyd asked if there was any assurance that the chairman of the committee would be there the next day.

Senator Bartlett thought there was. He was now sick in his room at the kimball house, but expected to come up by the next morning. He was chairman of the committee which reported the bill, and if it should be assailed it would become his duty to defend it. He had expected to take part in the discussion, and the other members of the committee desired his assistance in supporting the measure.

Senator Hall said Senator Wooten was not only chairman of the committee, but chairman of the sub-committee, which prepared the substitute, and he was largely its author. Therefore, if possible, he should be present during its discussion.

Senator S. R. Harris asked if Judge Hall would be willing to go on tomorrow if Senator Wooten should not be present.

"I would not ask a longer delay" askd Senator.

A Victory for the Pony Orator. Senator McCollum, the pony orator of the senate, scored a victory in a single-handed contest with Senators Boyd and Massengale.

It was on a bill to establish a special road law for Dade county.

Senator Boyd raised the point that a local law was unconstitutional where a general law met the case. Pretty soon, he said, each county would have a road law of its own, and the time of the legislature would be taken up with unnecessary local bills at great expense to the state. The policy of the state, he said, was to do business by general laws as far as practicable, and so do it economically.

Senator McCollum made a short and sensible speech in which he said that the geography of Georgia was of such a character that no general road law would meet the requirements of all sections of the state. It cost much less to make roads in south than in mountaineous north Georgia, yet the people of the mountain region were equally dependent on good roads and must be allowed to spend more money in making them. As an evidence that a general law would not suffice, an excellent general law had passed the senate but failed to pass the house because south Georgia would not take what was necessary in north Georgia would mot take what was necessary in north Georgia to make good roads.

This, he said, was of yeat importance to his coun-Senator Boyd raised the point that a local law was

not take what was necessary in north Georgia to make good roads.

This, he said, was of vast importance to his country, and did not affect any other. Therefore he appealed to senators to give them a law that would give Dade good roads and develop her resources. He was no lawyer, and was not prepared to argue the constitutional point, but the governor had recently signed a similar law for Walker county. He did not think it unconstitutional, and the attorney-general did not think it so. Besides this, former legislatures had passed similar laws, which were in operation in many counties of the state.

Senator Massengale thought the law plainly unconstitutional, and therefore could not vote for it.

The bill was passed with only three or four dissenting votes, and as the result was announced Senator McCollum was applauded.

Pretty soon another local road law for Emmanuel county can e up on its passage, and Senator Holmes, who represents that district, remarked that this was a case of the kind which the senator from the 4th had so eloquently defended, and he asked that the wire grass region be fed out of the same spoon that had been given to north Georgia. The bill was passed after Senator Boyd's renewed protest.

There was a tilt between Senator Strother and There was a tilt between Senator Strother and

passed after Senator Boyd's renewed protest.

There was a tilt between Senator Strother and Senator Johnston on the attempt by the former to get a reconsideration of the bill which abolished the county court of Burke.

Senator Strother wanted to strike out the Johnston amendment, which put on the proviso that the court should be abolished if it should be recommended by the grand jury of Burke.

Senator Strother thought the whole people through their representatives in the legislature should say whether the court should be abolished and not leave it to the twenty-four men who composed the grand jury. All three of the representatives from Burke, he said, were in fayor of the bill. Senator Johnson said he put on the amendment as a compromise. There were two battles, one favoring and one opposing the abolition of the court. They were honorable gentlemen on both sides, and he could not tell which was right. He thought it safe to leave it to the grand jury, drawn from a body of men selected for their intelligence and integrity.

The motion to reconsider was lost.

The governor's message concerning official in-telligence of Judge Will J. Winn's death and of the necessity for the election of his successor was re-ceived. The house joint resolution of regret at the death of Judge Winn and providing for the election

There was a good deal of opposition to the call to increase the salary of the state librarian There was a good deal of opposition to the bill to increase the salary of the state librarian from \$1,500 to \$1,500.

Senator Boyd sprung another constitutional question by reading that paragraph of the organic law which forbids extra compensation on any contract which has already been entered into and the work already performed. This, he thought, would bar the senate amendment applying the increase to the salary during the incumbent's present term.

He could not see how the general judiciary got around-that. Even if it were not unconstitutional he thought it had policy. It was not the policy of the state to pay high salaries. They tempted corruption to secure officer. At the present sairles even of the governor and state house officers there were plenty who sought those offices, There were plenty who would be glad to get the position of librarian at the present salary.

Senator Bartlett as chairman of the finance committee said a sub-committee had carefully investigated the matter and had found that the increase was only just to a faithful officer. He had now three libraries instead of two as formerly, and a vast increase of books in his charge. Captain Milledge had performed the duties of the office better than any one in his recollection.

Senator Hall said the judiciary committee did not try to get around the constitution nor over it. It was not necessary. That clause was framed when it was the custom to give raise contracts for public work after it had been performed, and the contractors found they were losers. This bill did not propose to pay an increase for services which had already been performed. The legislature had raised salaries before, and the state librarian was now the poorest paid of the statehouse officers. His position was more responsible than some of the statehouse officers who receive \$2,000 a year. This legislature had imposed additional work on the librarian, and the library from a small affair had grown to large propertions.

Senator Massengale thought that any one who went down in the bill to increase the from \$1,500 to \$1,800.

The Penson for Confederate Widows.

The bill to submit to the people a constitutional amendment authorizing the legislature to pension the widows of confederate veterans was passed by a vote of 37. There was not a dissenting vote, but Senator Strother made a few remarks anyhow. He said:

"Mr. President: I take great pleasure in stating that I am unqualifiedly in favor of the constitutional amendment to allow the widows of confederate veterans to draw pensions. I would be recreant to the cause in which I embarked and by which I was a sufferer with those confederate soldiors who by their bravery, their particitism, their devotion to the country in her dark bour of peril, have made history which is the admiration of the world, and have gone hence from this earth leaving their widowed with the said of the men who contributed so much to their country, to the bravery and the glory of arms in its high state of perfection."

The senator was much interrupted by Senator Lyle and Senator Massengale, but declined to yield the floor for fear it might break the spell of his eloquence. The Penson for Confederate Widows.

Senator Bartlett's Resolution Introduced in the Senate Yesterday.

Whereas, the joint committee appointed by the general assembly to ascertain from the lessees of the Western and Atlante railroad what claim they make against the state, the basis thereot, and how and in what manner they ask. For a settlement of the same, have submitted a report, accompanied by the written statement of aid lessees, containing the claims they make against the state as such lessees. And whereas, said claim as presented, which claims from' the state's 70,881.74 as the amount due the lessees for betterments, is, in the judgment of this general assembly, unjust and extravagant—not authorized by the lease contract or the law, not in accordance with any principle of equity or justice.

And whereas, said elssees and those who represent them have, in the presentation of their claim before said committee, which was submitted in writing and is now submitted to this general assembly, boldly asserted that they have the right to dismantle the Western and Atlantic railroad, its track, rails, bridges, depots, etc., and thereby practically renderly value for lease or sale, and also to remove from the limits of the state all the rolling stock, engines, cars, etc., belonging to said railroad and have threatened to do so, and
Whereas, such acts it carried out by said lessees would be in violation of the rights of the state in the premises and might result in great damage to the state and its property. Be it therefore Resolved, by the general assembly of Georgia that it is the judgment of the general assembly that the state of Georgia does not, under the lesse contract, the law nor in—equity or good consicience, owe said lessees any sum whatever for the money claimed by them to have been spent for betterments, and for the alleged improved condition of said road and its appurtenances, if any has been made, nor will it either consider the same, consult or confer with the lessees with reference thereto, nor recognize or pay the same or any part thereof, and that it will not constitute any commission or retinuate the co

Senator Bartlett offered the following amendment to his resolution in the committee:

Be it further resolved, That the governor and attorney general be and they are hereby authorized to make a settlement with the lessees of the Western and Atlaulte railroad for the payment by such lessees to the state for such rolling stock, cars and other personal property received by them from the state and which cannot be returned to the state by such lessees at the end of the lease.

That it shall be the duty of the governor and attorney general to investigate the claim of said lessees for the payment of taxes in Tennessee, and it shall be the duty of the attorney general to furnish the governor his written opinion as to whether the state is liable therefor; and the governor shall submit all the facts ascertained, together with the opinion of the attorney general, to the next general assembly.

The resolution was referred to the committee on the Western and Atlantic railroad with instructions to report at once.

A RARE CHANCE.

PARE CHANCE FOR A LOVELY SUBURBAN Home or Homes—As my business calls me elsewhere, and as I desire to pay every dollar of my indebtedness before leaving Atlanta. I have very reluctantly decided to sell my beautiful Edgewood home at once, either as a whole or subdivided portions thereof. I have had an expert engineer to carefully survey and plat the same, and will sell at a bargain, the most magnificent suburban lots in the south at a sacrifice. The property is my home place, near Atlanta, occupied this spring and summer by Mr. Hugh T. Inman and family, adjoining the lovely homes of Senator Colquitt, Major Tom Walker, P. H. Smook and others, and very near the justly celebrated Moreland Park Military school. It is immediately on the Fulton County Electric railway, about 200 yards from Pendleton station, on the R. & D. R. R., and very near the Georgia R. R. and the Atlanta and Edgewood Electric railway. The place is a twelve-acre grove of native oak, hickory, cluss and pines, interspersed with pecans five years

the Atlanta and Edgewood Electric railway. The place is a twelve-acre grove of native oak, hickory, elms and pines, interspersed with pecans five years old; also a lovely rose garden and granite pit for hothouse plants. The grove is set in blue and orchard grass, and is gently rolling in every direction from the house. It is the bighest point in Edgewood, overlooking the city of Atlanta, and is pronounced by everyone to be the ideal suburban home of Fulton county. A magnificent 60-foot well of water through solid granite is on the place and sparkling springs in Copenhill park, 100 feet from the property. The house is a good, suistantial country house, strong and solid, containing ten large and four small rooms, two large, wide halls, a deep granite wine cellar and a cold storage cellar, single or double closets in every room and 300 feet of wide, massive veranda, with lovely views in every direction. The place as a whole cannot be duplicated in the gouth, and nature has so laid it off that it can be subdivided and built on so as to make the whole a most beautiful residence park and yet the distinct and separate home of a dozen or more families. This property must be sold immediately. Several lots alfready spoken for by unexceptional parties. No objectionable parties can buy a lot at any price. The electric railway is about completed, and will in a few days be making regular trips. I will be glad to show the property at any time, and a note addressed to me care falmadge house, Atlanta, or care Rosser & Carter, over Merchants' bank, Alabama strocet, will be promptly received, or telephone No. 1,232, three calls, at my residence. Let Atlanta Turn Out.

We desire to renew the suggestion made yesterday in regard to the interest that Atlanta ought to take in the exposition today. We do not allude to the general interest, which is enthusiastic, but to the special in terest that ought to be aroused by the extraordinary features of today.

Our merchants and business men and the people generally could not better express their appreciation of the presence of so large a gathering of farmers and alliance men than by going to the grounds and partaking with them of the pleasures of the day.

It is known that there is to be a tremend ous outpouring of the farmers, and there ought to be a tremendous outpouring of the people of Atlanta, the combined forces thus paying a rare tribute to the energies, the forces, the skill, the industry, the strength, and the prosperity of Atlanta, Georgia, and the south.

These are suggestions made to the local pride of Atlanta. These aside, however, no citizen can afford to miss the opportunity of enjoying the unique features that are on the programme for today.

The Claim of the Lessees. Will the general assembly take any steps looking to an adjustment of the matter in dispute with the present lessees of the State

What member is there who has read the arguments before the conference committee who is not obliged to admit that it is to the state's interest to have this matter disposed

of before the road is again put up for lease? Really, to us it is an astounding enigms that a question involving such grave consequences to the people of Georgia should nave been so long neglected—and as a public journal we feel called upon to warn the general assembly against further inaction upon this important question.

The question is not what the state owes on improvement to the tracks and other fixed property, commonly designated as "betterments;" we do not believe the state should pay for such improvements; but the matter of taxes, rolling stock, and perhaps the excess sidetracks, which the best lawyers say the lessees have a right to claim, certainly presents food for very serious reflection. If these claims are adjusted it will be of incalculable benefit to the new lease. It is a business matter, pure and simple.

Are we prepared to assume, in the face of what we are told by the attorneys and representatives of the lessees, that other lessees will make the state a present of these items? Let us not deceive ourselves; people who have money-sense are not likely to give up property which has a money value in that article of property where they can save a dollar, while to replace the same would cost the state ten dollars.

The state is trying to release this road and the bids are to be in before the next general assembly meets; therefore in order to get the benefit of a settlement the settlement should be had in advance.

The governor said, in referring to this claim of the lessees in his message to the general assembly in November, 1888: "I respectfully recommend, if the Western and Atlantic road is leased, that the lease be for a long term of years and that it shall be offered for lease unencumbered with any claims of any kind."

Has anything transpired since November last to change the aspect of affairs? Does not the present outlook really give emphasis to the governor's recommendation?

Hearty Welcome to the Farmers.

More Georgia farmers will be in Atlanta today than were ever gathered together on any occasion in any southern state.

The great alliance leaders from Texas. Tennessee, Carolina and Georgia are present as the guests of the exposition and will address the multitudes today. It will be the most important council of farmers that has ever gathered in the south. Beyond the mere business of the day a romantic turn will be given to affairs by the marriage of two young alliance couples in the cotton bagging that embodies the vital principle on which the alliance is banded together.

We give hearty welcome to the honest farmers within our gates! Atlanta has drawn her glory from their toil, and her dear is built on what they have dug the soll. Her prosperity rests on their good will and co-operation. They are her tural allies, and she is their natural friend. We rejoice that this city is to be the theater, and the Piedmont exposition the occasion for bringing together the magnificent multitude of farmers that will gather today. THE Constitution, speaking for the people of Atlanta, who will speak for themselves during the day, welcomes the farmers and wishes them a happy and profitable visit.

Accommodation for All.

Two years ago there was an uncomfortable crush at the exposition grounds on Cleveland day, and much dissatisfaction was expressed and much discomfort felt by those swelled the crowd on that occasion.

This dissatisfaction and discomfort were not confined to the spectators. The situation was very keenly felt by the directors of exposition company, and they determined then to prevent any such discomfort in future. They have carried out all their plans in this direction, and there will be

no trouble whatever today. Two years ago the discomforts of the crowd

were augmented by the weather, which was of the most disagreeable character; but there was trouble in getting to and from the grounds; the transportation facilities were inadequate. All this has been provided

There will be a large crowd on the grounds -large enough to be an inspiring spectacle in itself—but there will be none of the discomforts that attended the crowds of two years ago. The railroad and street car facilities have been more than quadrupled, and every arrangement has been made to com-fortably transport all the people that desire to attend the exposition today.

The weather promises to be perfect—the people that are here already are enthusiastic, and everything points to the biggest, fines and most enjoyable show the south has ever

Let Us Make it a Hummer.

Let Atlanta turn out to do them honor and give them welcome, and we shall see the biggest crowd in Piedmont park that ever passed within the gates. Let Atlanta do her duty today and we will break the record! .

The Geological Survey. The passage by the house of the bill establishing a geological survey for Georgia is a long step toward the development of the resources of the state, and is, therefore, of

Plenty of Room for All.

Atlanta is taking care of the crowd today, and she can take care of all that come. The public comfort department of the exposition still has room for ten thousand people, and you need have no fear that you cannot get food and shelter at reasonable rates, that you cannot get carried promptly and comfortably to and from the grounds.

Stuck on Our Mayor.

The Hon. John Thomas Glenn, of Atlanta who we still regard as mighty good gubernatorial timber, in despite of his proclivity for prize fights in DeGive's opera house, is said to closely resemble Governor Hill. In behalf of Colonel Glenn's per onal pulchritude, we protest.

We understand that Hon. John T. Glenn the now famous mayor of Atlanta, protests that the recent occurrence at DeGive's was not a prize fight. This changes the case altogether. Of course, if that affair was merely a "fistic foray," or a "soiree de slugger," we have nothing more to say.

[The Tribune is mistaken if it means that Atlanta's worthy mayor attends prize fights. He doesn't LETTERS FROM THE PEOPLE.

Card From Mr. Patillo.
ATLANTA, Ga., October 23.—Editors Con. ATLANTA, Ga., October 23.—EDITORS CONSTITUTION: A card appeared in your issue of today from Major J. B. Cumming denying the accuracy of a dispatch sent by myself to the Augusta Chronicle with reference to Dr. Fetton and Major Stabilman's speech before the joint committee on betterments. Major Cumming is correct in the statement that Dr. Felton did not withdraw from the committee room as I alleged in my report. I was mislead into the statement that he did withdraw by putting a wrong construction on what the latter said to me and by having previously heard that some member had left the committee room.

The gentleman who retired was Judge Harrell, of Webster.

Webster.

Major Cummings, however, was mistaken in stating that Dr. Felton was not indignant at the tenor of Major Stahlman's speech, as reported by myself in the dispatch alluded to by the gentleman.

Dr. Felton has since made a statement over his own si, nature to the effect that he was indignant and that he regarded Major Stahlman's speech as a threat from beginning to end.

Very respectfully.

Very respectfully, ATLANTA COR. OF THE AUGUSTA CHEONICLE.

ing tends to injure me, by saying the bill which I rendered was considered exorbitant. ing teuds to injure me, by saying the bill which I rendered was considered exorbitant.

The officumstances are these: I was asked by Colone M. A. Hardin to make an estimate for a postoffice for the house; I did so on July 15th, and or July 29th Colonel Hardin informed me that my bid had been accepted by the house. He also gave me a letter dated the same day, informing me to proceed with the work at once, at a cost of \$168; hence, you will see, I have a written contract, the price being passed upon by the house before the work was begun. You also state that there was a cousiderable kick in the house when the bill was presented, but finally it passed. I wish to say that no one kicked but the Hon. Mr. Snelson. And when the bill was passed there were 102 who voted for and three against it, the three yotes being the same Hon. Mr. Snelson and two of his friends. The squabble is between the senate and the house and I, the innocent party am made to suffer by it, and am shown to the public as having rendered a (se-called) exorbitant bill.

By giving the above a prominent place in your valuable columns, you will greatly oblige.

COTTON BALES BURNING. Thirty Bales on Fire at Treadwell's Ware-

house Yesterday.
Thirty bales of cotton were on fire at 3:45

esterday afternoon.

They were part of a large lot of 150 bales stored in Treadwell's warehouse, near the Central railroad depot. The origin of the fire is not known, but it is supposed to have been caused by a spark from an

ngine.

The alarm was turned in from the box in the Central railroad depot, and in a few minutes the fire department was on hand, and a very fine piece of work was done.

The fire was kept from extending, and the thirty bales on fire were rolled out and the flames extinguished.

guished.

The outsides of the bales were burned away, and a few bales were very badly burned. The bulk of the cotton was saved, however, and the loss is not more than three or four hundred dollars, according to the best estimates that could be made last evening. to the best estimates that could be made last evening.

The cotten belonged to Adair Bro's, and Dr, Turner, and the entire lot was fully covered by insurance. Owing to the reculiar nature of cotton on fire it is impossible to say just what the damage will be until it is properly adjusted. The loss, however, will fall far short of the value of the cotton on fire. The building was not damaged to any great extent, owing to the quick and effective work of the department in controlling the fames.

the tilt left for the Macon fair, where it will take part in the cavalry tournament there. The team is composed of Lieutenant Dozler, Sorgeant Beatle, Privates Beuteen, Benson and Miller. The Horse Guard team is a good one, and although there will be some of the very best tilters in the south in the contest, it is safe to say that it will hold Atlanta's end up well.

A Camel Race .- Today there will be an exciting race at the exposition grounds. Mr. John W. Haven, keeper of the zoo, will carry out the two camels, "Gyp," a trained Arabian Bactrian camel, and "Maple," the big black dromedary. They will be decorated with white cotton bagging, and the race will occur on the main track.

Five Requisitions,-Mayor Warren yesterday sen off five requisitions to the governor of Alabama de-manding the surrender of five citizens of Haroldsor county, who are accused of different crimes. Shut Up After Eleven .- The city officials all want

to go to the exposition today and resterday acquainted Mayor Glenn with their desire. The mayor at once issued an order closing the offices at 11 o'clock today. At 11 the offices will be closed and the officers will go out in a body.

Hon. Thad Pickett.-One of the most popular visitors at the capital yesterday was Hon. Thad Pickett, the redoubtable Baptist preacher who made things so interesting for Congressman Allen Candler in the last election. He was extended the privileges of the floor in the house of representatives, and attracted a good deal of attention. He has a square-lined, energetic face, rather deep-set black eyes, close together, and is just about the man in general appearance one would expect to find. There is a sort of readiness and self-possession about him that suggests Sam Jones, the evangelist. Current talk has it that he will be a candidate in the next race, and more redoubtable than ever because he will have several opponents instead of one, Mr. Candler having announced his intention to not be in the race. the floor in the house of representatives, and at-

He Is Still Alive.—Judge C. C. Green was still alive at three o'clock this morning, but was extremely low. His death was expected all day yesterday, but his remarkable vitality kept him alive. Dr. Alexander and Dr. Olmstead were with him almost constantly, while Dr. Green never left his bedside. He is sinking gradually, but may live twenty-four hours; or he may die at any minute. His physicians and family have shandoued all hones.

He Is Getting Better.-Mr. George Markens, who, with his wife, narrowly escaped death recently by having his carriage run into by a freight train, was at his office yesterday for the first time since the accident occurred. Mr. Markens is still on accident occurred, an Markens is still on crutches. He says that Mrs. Markens is injured much more seriously than he is. She is still confined to her room, one of her feet being badly crushed. The injuries of both Mr. and Mrs. Markens proved much worse than was anticipated.

The Locomotive Engineers. DENVER, Col., October 23 .- The locomotive Denver, Col., October 23.—The locomotive engineers today concluded their investigation of the charges begun yesterday against one of the grand officers. It is understood that the lodge adopted resolutions reprimanding him. The election of officers has been post poned until Monday. Cavener, the Chicago candidate for grand chief was withdrawn today, and the only candidates now in the field are: P. M. Arthur, G. W. Vrooman, of North Aylette, Neb., and B. M. Vedder, of Sedalia. Mo. Predictions are being made that Vrooman will be elected, as a canvass of the delegates yesterday failed to give Arthur a majority.

A resolution was introduced favoring the location of the World's fair in Chicago, and was adopted unanimously. Tomorrow the insurance question will be discussed.

Iron Men Meet. PHILADELPHIA Pa., October 23 .- A meeting was held here today of representatives of a number of bar iron manufacturing establishments of Penn-sylvania and vicinity to consuit concerning the condition of trade. A general exchange of opinion was had, the sentiment being that tusiness was in good condition. All stated that the demand for iron was good and that their best quotation for bars in carload lots at Philadelphia was one and nine-tenths cents per pound; buse, net cash. The meeting adjourned to meet in two weeks.

James Kelly, a Journal reporter, today. The Journal this morning referred, in uncomplimentary
terms, to one of the judge's decisions, and when
the reporter addressed him McDonald flew into a
passion and struck the reporter twice in the face
with his fist, knocking him down. The judge was
arrested, but was released on his own recognizance. A Marshal Killed.

NASHVILLE, Tenn., October 23.—A special to the American from Trenton, Ky., says: J. A. Smith shot and killed City Marshal W. T. Williams here tonight. The marshal was serving a notice on 8mith to answer for disorderly conduct. Public sentiment brands it cold-blooded murder. Smith escaped. It is said the illegal sale of whisky on Sunuay is responsible for this murder.

Captain Albee, of the Winchester Fire Arms captain Aloee, of the Winchester Fire Arms company, who will break three pigeons sprung at the same time, has an interesting history. Captain Albee holds a captain's commission in the regular army, and during the war was a sharp-shooter, and at one time drew a bead on one of the leading southern generals, but the ball went wide of the mark. It is made of the cotton stalk, Mr. J. R. Hunter, of Forsyth, is the invent of the machine by which it is made. It is a small and cheap machine that every farmer can buy and make his own bagging. The machine strips the bark from the stalk of the cotton, and it is this bark from which the bag-

ging is made.

Mr. Hunter is at the Kimball with Colonel
Livingston, and has with him samples of the
bagging. It is as strong as jute, weighs two
pounds to the yard, and can be made for four
cents a yard. Mr. Hunter says the stalks from one acre will make enough bagging to cover the cotton from five acres.

Mr. Hunter's is indeed a great invention.

The Dairy Show.

The dairy is proving one of the most attractive branches of the exposition. It is doing a great work in initiating the farmers into all the latest and most approved butter making processes.

Every day practical tests and illustrations are given, when all the apparatus is at work. There are outfits ranging in capacity from one cow to four hundred cows. The apparatus is similar to that used in the creameries of the north, where from five hundred to a thousand pounds of butter per day are made. A six-horse power engine is used to operate the machinery in the dairy building, which is large and commodious, having been built for that particular purpose.

Among the apparatus is a creamery for separating the cream from the milk while in a sweet condition. These creameries are furnished with refrigerating appliances, and in fact everything that is useful and advantageous in butter making is on exhibition at the dairy building. Don't forget to pay the dairy show a visit today.

He gave as a reason for wishing to be re-leased from the responsibilities of the office that the duties of his new position as general manager of the Georgia Central required so much time that he the Georgia Central required so much time that b was unable to attend properly to the obligations of the presidency of the Western Road of Alabama.

the presidency of the Western Road of Alabama.

The directors expressed many regrets at the loss of Mr. Gabbett. Realizing, however, the justice of the reasons he gave, they accepted the resignation and unanimously elected Colonel Charles Phinizy to the vacant presidency.

The board then considered the vacancy caused by the death of Dr. Hamilton, of Athens, who had for a long time been a director. After some discussion a vote was taken, and Mr. A. C. King, of Augusta, was elected to fill Dr. Hamilton's place. The board then adjourned.

Mr. Gabbett remained for some time in his old office, where the meeting was held. In the evening he boarded his private car and returned to Savannah.

Mr. J. Floyd Jones and Miss Hattie T. McCarty were quietly married on yesterday at 10:30 o'clock at the Pringle residence, in this city. Mr. Jones, until recently a resident of this place, is now a successful merchant of Sparta, and by his lively wit and great good humor has ever rendered himself popular among all his associates. The bride is a sister to William A. McCarty, of the firm of W. A. McCarty & Co., of this city, large dry goods resrehants, is a most beautiful, charming and amiable young lady, and in every way, worthy the husband of her choice.

The ceremony was performed by Rev. Father Kennedy, of this mission, in a happy manner, the brief preliminary observations being quite well selected and appropriate.

The bride was dressed in a handsome suit of brown silk plush with a collarette of pearls, and wore a large bouquet of geraniums and chrysanthemums at her breast, and beside her handsome husband in the beautifully decorated parlor presented a lovely appearance.

Stocks as Reported at the New York Stock Exchange

New York. October 23 .- The money market was much easier and the rate dropped as low as three per cent, which gave a stimulus to the cover-ing of shorts and so furnished foundation for general improvement in stocks goday. Railroad news was scarce, but Kansas and Texas became a feature on rumors in regard to new plan of reorganization and a settlement of the difficulties between the conflicting interests of bondholders. This influenced favorably other Gould shares.

The strength of the market was early apparent

and a slow but steady appreciation of values, which lasted with but the slightest interruptions until the close of business was inaugurated. The improving tendency reached all portions of the list and final prices are about at the top figures. The market prices are about at the top figures. The market closed quiet and strong. Important final changes are few in number and Union Pacific rose 1½ and Jersey Central and Louisville and Nashville 1 per cent each, while sugar refiners is down 1½. Sales aggregated 212,000 shares.

Exemple quiet and weak at 482@436½. Money easy at 3@8, closing offered at 3. Subtreasury balmices: Oni \$155,952,402; currency, \$5,559,000. Governments steady; is 127; 4½ 105½. State bonds dull and featureless.

Electron band. 7,170 NEW YORK, October 23.—[Special.]—Henry Clews, & Co.'s circular on the cotton market today says: In Liverpool this morning spot cotton was pressed for sale at 1-16d decline on receipts of 25,000 balos. bloss. Futures opened weak at 8@4-5fd decline in sympathy with the easier feeling in spots and the decline in our market yesterday. This loss, however, was almost entirely recovered in the later trading, the market closing firm at about yesterday; prices. The sharp break in our market yesterday carried prices down so as to allow the shorts to reap handsome profits on their contracts, and the over handsome profits on their contracts, and the open-ing the market was flooded with buying orders from the south for all the options outside of October which so offset the bearish feeling that the opening

was steady at unchanged prices. After the first call the buying became so aggressive that prices adthe buying became so aggressive that prices advanced rapidly some points, and before the noon call was reached outside buying orders came in rapcan was reaccided outside buying orders came it rapidly. At this juncture and in the next hour a further advance of 3@4 points was established throughout the list. The trading was heaver than that which obtained yesterday, and was at times much animated. The shorts and the frightened buils who threw over their holdings yesterday were the principal buyers. The same that the days a unit threw over their holdings yesterday were the principal buyers. The market held the advapce until just before the close, when the southern markets came in lower on increased receipts both at the seaboard and interior, caused an easier seeling to prevail, during which prices sold off 4@5 points from the highest. The close, however, was steady with the final prices showing net gains ranging from 4@6 points over yesterday's closing. The total sales were 183,000 bales. Spot cotton ruled quiet and steady here at unchanged prices with sales of 318 bales, but nearly all the southern markets were reported easier. Galyeston and Augusta being 1,160. ported easier, Galveston and Augusta being 1-16c and Mobile, Charles on and Norfolk 1/4c lower, While we expect to see prices go much lower in the long run, but yet the market is entitled to a mod-erate reaction. HENRY CLEWS & Co.

NEW ORLEANS, October 22—[Special]—Glenny & Violet in their cotton circular of today say: While every indication last night poluted to lower markets New York and New Orleans both opened better, this market advancing 9 points over yester-day's cleans over yester-day's cleans over yester-day's cleans where the polaries of the polaries better, this market advancing a points over yester-day's closing, principally caused by shorts covering. This disposition to cover was doubtless owing prin-cipally to the reaction in Liverpool from the decline. In the morning, where the market opened 3-54d lown, but recovered it all and closed firm, although spots were 1-16d lower. It would seem, however, that the covering was largely to take in profits, as, after the advance both New York and here, from that cause, the market began to recede as soon as such orders had been filled, and we close here 6@7 point lower than the highest and 2@3 points better than last night. Outside of Liverpool's reaction we find everything pretty much as we stated it yesterday recoipts being again heavy at the ports, indi-cating a movement for the week here of 100,000 bales here and 525,000 bales at all the ports—the largest on record-whereas last week's receipts (809,000 bales) were the largest up to that date. The advance has steadled the market, though we close but slightly better than yesterday, and spot buyers are more disposed to take hold than they were yes terday with large sales. Everything now depends upon the long interest in the two American mar-kets, as the short interest has been so very largely covered. If the former hold what they have it may deter selling to any great extent, while on the other hand, many predict a further decline; yet, owing to the auticipated weakness of spots, due to an accumulation of large receipts, much will depend upon the course of Liverpool. The difference between here and New York is 60 points on December, While Decembers here are 10 points under spots they are 56 points under spots in New York-a very abnormal condition of things which we suppose will regulate itself in time, F. o. b. sellers are holding aloof, and but little offering in this market, and only then at prices too high compared with

Spots here are steady; sales 12,500 bales; mid-GLENNY & VIOLETT.

THE CHICAGO MARKET.

Features of the Speculative Movement in Grain and Provisions.

CHICAGO, October 23.—Wheat—Trading was active and firmer, and feeling existed which preactive and firmer, and feeling existed which prevailed most of the session, though occasional weak spots developed. The opening was 1/48% higher than yesterday's closing, which advance was followed by further improvement of 1/40, then break of 1/40 occurred for December, and 1/40 for May, which was followed by an advance of 1/40 for December and 1/40 for May, closing about 1/40 higher for December, and 10 higher for May than the closing flature of resterday. May took lead agent to ing figures of yesterday. May took lead again to-day, selling from 8½@¾c premium over December. Corn—A rather firm feeling was manifested in this Corn—A rather firm feeling was manifested in this market, and transactions were at slightly higher price. A better tone was due largely to a smaller movement of today's arrivals falling short of expectations. The speculative market opened a trifle above the closing quotations of yesterday, was firm the greater part of the session, though no material advance surrecorded. But first transactions of the session rial advance was recorded, but final trades were

shade above yesterday.

Oats—Arrivals were better. This produced a stronger feeling, and an advance of a fraction was stronger feeling, and an advance of a fraction was made. Trading was moderate and well distributed. A light business was done in selling December and buying January at %c spread.

Mess pork—There was more doing in a speculative way, and the feeling stronger. A prominent local operator purchased November rather freely, while missellaneous "shorts" accepted fair quantities for January, the bulk of which was obtained from manufacturers. Prices were advanced 10@17%c on the whole range, though outside prices were not fully supported.

fully supported.

Lard—Trading was only moderate, and the feeling was easier. Frices ruled about 56210c lower, and the market closed quiet at inside figures.

Short rib sides—Rather more doing and the feeling stronger. Frices advanced 156017 to on October, and 2560c on other deliveries, but the improvement was not fully supported.

mittee of the whole with the recombination that it do pass."
Judge Harrell, of Webster, opposed the bill.
Mr. Johnston then spoke briefly and forcibly in favor of the bill. He showed the practical value of a geological survey and sanding department, quoting figures from Alabama tax records to corroborate his statements. He referred to the geological survey made in the country around Charleston that resulted in the development of the phosphate beds, which pay now over \$360,000 annually to the state. A number of similar striking instances were enoted. Mr. Paul M. deceiful."

"Do the merchants find any trouble in getting the alliance posple to hand a it?"

"I imagine not. Here is my order book and you can see where orders are duplicated every few days. They write that they can't fill the demand. My goods are highly indersed by the president of the Georgia State Farners' Alliance."

"Do you keep a supply on hand."

"Yes, sir, I neonize the fact that when a man wants bagging he wants it bad, and wants it right now, and hence I keep several cars on the road all the time." The previous question was called.
The ages were \$7 and the nays 45.
Under the rules of the house the speaker was
salled upon to vote, and voted "aye."
This gave the bill a constitutional majority, and
the bill was passed.
The amountement of the result was greeted with
prolonged applause.

There was a spirited debate in the house yesterday over the senate bill to amend the charter of the Macon and Birmingham malfroad.

There was a spirited debate in the house yesterday over the senate bill to amend the charter of the Macon and Birmingham malfroad.

The charter granted last session provided that the road should go through Greenville in Meriwether county. It will be remembered that about the same time this road was chartered another road, the Griffin, LaGrange and Birmingham, was projected to go through Greenville. The two roads would parallel one another, and tha Meriwether people claim that they supported the Macon and Birmingham measure only with the express understanding that it should go through Greenville.

So the charter was granted.

Now Mr. Patterson, of Bibb, introduces his measure to amend the charter so as to allow it to go wound Greenville, within three mikes of the town. Mr. Hill, of Meriwether, opposed this yesterday when the bill came up for a third reading. He claimed that the amendment would ruin the town of Greenville, and was a violation of the promise given last session.

Mr. Patterson claimed that it would cost a great deal more to go through the town, that the building of the road.

Mr. Hardemau, of B.bb, spoke for the amend-Mr. Atkinson is boing a fine tusiness, and his goods merit the success which they are having. Hot Springs System of Bathing. Messrs. E. W. Marsh & Co., have secured he services of Dr. W. H. Whitehead, who is famillar with Hot Springs, Ark., to introduce the famous Hot Springs System of bathing at Lithia Salt Springs, Ga. The Hot Springs Bath House or Medical Department is now completed and is built on

the same principle as those of Hot Springs, Ark.
Parties suffering from any of the following troubles will find relief and core from the use of these baths in connection with the remarkable waters of these springs. Rheumatism, gout, scrofula, syphilis-acquired or hereditary, in all its different forms—Ozena and Catarrhal Sore Throat, Skin Eruptions, Chronic Ulcers, Glandular Enlargements, Malarial Poison, and of special benefit in Menstrual troubles,

This is a long list; yet they are all caused directly or indirectly from an impure condition of the blood. The Vapor Bath sweats out the impure matters and rouses the dormant glandular system to action, and is acknowledged to be the most rapid and at the same time most thorough means of cleansing the system of impurities. Thousands and thousands of cases have been cured at Hot Springs Mr. Snelson, of Meriwether, and Mr. Atkinson, of

Mr. Snelson, of Meriwether, and Mr. Atkinson, of Coweta, spoke against it.
Mr. Meintyre, of Thomas, spoke for the amendment. The whole of southwest Georgia, he said, was bottled up. They were in the position of the people of northeast Georgia before the Marietta and North Georgia was extended to Atlanta. The Macon and Birmingham was merely an extension of the road from Valdosia, and would give the southwest counties an outlet to the west by way of Birmingham. He protested that a little town like Greenville should not cark up a whole section of the state. If the legislature forced the road through Greenville, why couldn't other little county sites along the line do the same thing? by this process when all other remedies had failed and hope was gone.

The Vapor used here is obtained by passing a stream of Mineral Wafer over a coil of hot pipe. The Vapor rises into a compartment into which the patient sits and causes free sweating. While taking this sweat the hot Mineral Water is drank freely as it is at Hot Springs, Ark. The patient goes from this sweat cabinet at the expiration of from three to eight minutes to a marthe legislature forced the road through Greenville, why couldn't other little county sites along the line do the same thing?

Mr. Hand, of Mitchell, made a strong talk for the amendment. He reminded the house that the town of Greenville Lad not chartered the road, nor was the road built especially for the town of Greenville. The amendment of last session, forcing the projected road through Greenville, was tacked on in the last days of the session when any opposition to any bill was talat. The gentleman from Meriwether (Mr. Hill) had taken advantage of this to force the adoption of his Greenville am adment. The road, he repeated, was virtually no extension of the Georgia, Floridal and Southern, and was of vital interest to the whole people of south Georgia.

Andress' New Colossal shows, museum and menagerie will visit Atlanta for three days, Thursdy, Friday and Saturday, October 24, 25 and 26 and will give two of their excellent performances daily. A grand street parade will be given daily, and on the return of the parade to the circus lot, corner of Wheat and Jackson streets, a series of free outside exhibitions will be given. This is the largest show traveling that exhibits for the small sum of 25 cents, and to judge from the flattering press notices received by this company, it is a better show than is generally seen for more money.

PLANTERS HOTEL.

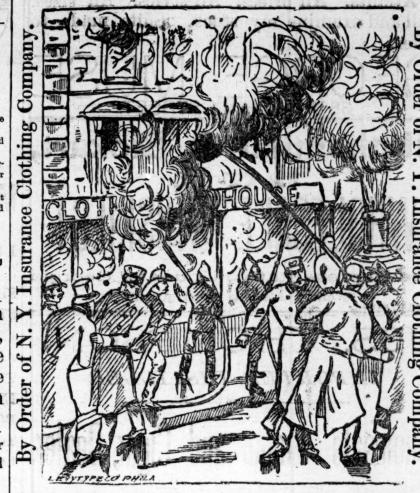

THIS OLD AND POPULAR HOTEL. OF ANTEbellum days, is so well and favorably known,
that it is atmost unnecessary to mention Augusta,
Ga., as the city where it is located. Before the
Kimball house was known, the Planters was the
finest hotel in the south, and today has lost none of
its past prestige. Some of the crown heads of Enrope have sheltered their heads beneath its mospitable roof, and the great men of the past and today
delight to do her honor. Augusta is coming to the
front very fast as a winter resort, and the Planters'
is doing her part well by overhauling, re-furnishing
and re-carpeting. The commercial traveler delights
to stop at the Planters. Mr. Camp, the new proprietor, is an Atlanta man, and is keeping the Planters in strictly first-class style. He now has a fine
orchestra for the season. Try the Planters.

N.Y. Fire Insurance Clothing Co

SALE OF CLOTHING!

Over \$39,000 Worth Men's, Boys' and Children's Clothing Saved from the Late New York Fire. Must be Closed Out by Order of the Insurance Companies.

The appraisers of the insurance companies, after carefully examining the stock of clothing, concluded that the same was not so badly damaged as claimed by the assured clothing manufacturers; and, failing to agree as to the actual loss, were forced to take the stock, turn it into money, and the goods must be sold at once in order to make final settlement. All goods are appraised at fifty cents on the dollar, and this is all we want for them. The great fire sale will enable the people of this city and vicinity to secure their clothing for almost nothing. Men's fine evening suits \$6.95, worth \$14; Men's heavy working suits \$4.98, worth \$11; this \$4.98 heavy suit is well made and trimmed. If the purchaser is not satisfied he can return the suit in two weeks' time. A splendid suit of men's clothes \$4.50. This suit is well made to match the latest style, and is really worth \$10. Extra fine quality of men's suits, tailor made, \$9.49. This is an elegant suit and worth \$16. 1.700 boys' suits, all to match, for \$3.75, worth \$7.50. 265 boys' suits at \$3.05. 600 pairs of pants, ranging from 98c to \$7.

2,000 men's, youths' and boys' overcoats, in meltons, kerseys, chinchillas, wide whales, worsteds, cassimeres, silk and satin lined, one-half value.

Examine our line and be convinced. Don't connect us with irresponsible traveling sales, but give us our just deserts. Don't cry humbug before you inspect our line of goods, as we can prove all our claims. Come see, and you will surely purchase.

Do you suppose it would be possible, with a sufficient number of men, to build a fine Reed Organ all would certainly require a large force of skilled men to do it. Now, if the Estey Organ company had taken so long a time as seven hours they would have had to begun before Columbus discovered America in order to complete 200,000 organs in 1888. They have actually been building their famous Reed Organs forty years, averaging about one organ

in thirty-five minutes. And not building them only. No other organ can show such sales. What does it prove? Simply that the ESTEY Organ is the favorite, that it is the best value for the money invested, that it has been the choice with the majority

of persons who have purchased organs. You can't make any mistake up choosing an ES TEY, for the great majority is with you.
